KING WILKES.

KING WILKES,

(1867), Rec. 2:22¼.

This celebrated stallion will make the season of 1886 at *J. H. Swan's Stables, Jerome Avenue and 169th Street,* New York City, at $100, payable at time of first service. King Wilkes is a brown stallion, 16 hands high, and weighs 1,115 lbs., in stud condition. He was bred by Albert Allen, Lexington, Ky., and foaled in 1876, and is now in the full vigor of matured power. He is a young, large, sound, pure gaited and level headed stallion. His breeding is given in full in the tabulated pedigree printed on the next page, and the attention of breeders is invited to it, in the confidence that it will repay careful perusal. It combines the gilt edge cross of Hambletonian and Mambrino Chief. His sire, George Wilkes (519), 2:22, stands confessedly at the head of trotting progenitors. He was not only, by the record, *the fastest of the entire sons* of Rysdyk's Hambletonian (10), and one of the greatest of race horses, in his day, but his success since he went into the stud, rather late in life, was unexampled. No less than *forty-one trotters and three pacers,* of his get, are now in the 2:30 list, and of them, *seven have beaten 2:20,* and twenty-five have records of 2:25 or better. Eight of his sons are already represented by their get in the 2:30 list, and five of his daughters have each produced one or more with records from 2:19¼ to 2:30. George Wilkes has therefore surpassed his illustrious sire, who has 38, the third largest number in the 2:30 list. Only one sire, Blue Bull, excels him in the number of his get in the 2:30 list, he having forty-seven trotters and three pacers to his credit, but of these only five have beaten 2:20, and but twenty-three have records of 2:25 or better, conclusively showing the *superiority of George Wilkes* in getting performers gifted with a high rate of speed.

This sire bequeaths to King Wilkes, in addition to his inheritance from old Hambletonian, and his own great and well founded reputation, most valuable crosses to Henry Clay and Sherman Morgan. The dam of *King Wilkes, Missie, by Brignoli* (77), 2:29¾, produced but two others, Cascarilla, 2:25½, in a fourth heat, and Qui Vive, who has shown a trial in 2:30. Cascarilla's turf career was cut short by an accident, and she was put to breeding. She has produced Quartermaster, who was sold for $3,000, after a two-year-old trial in 2:42½. *Missie* was a daughter of Brignoli, son of the great Mambrino Chief (11), the sire of Lady Thorne, 2:18¼, Woodford Mambrino, 2:21½, and nine others in the 2:30 list. The daughters of Mambrino Chief have produced sixteen with records from 2:17 to 2:30, including Director, 2:17, Piedmont, 2:17¼, Thorndale, 2:22¼, Voltaire, 2:21, and Onward, 2:25¼. The dam of Brignoli was Sally Woodford, by Woodford, who sired the dam of Woodford Mambrino, 2:21½, and of Wedgewood (692), 2:19. King Wilkes not only *combines the most valued blood lines,* but his pedigree fairly *bristles with speed points.* He traces eight times to Imp. Messenger, and twice to Imp. Diomed, the fountain heads of trotting blood.

But this horse does not depend upon his ancestry to recommend him. He is not only standard by blood, but also by performance, and by his progeny. His present record, 2:22¼, was obtained at Hartford, Conn., August 27, 1884, in the fourth heat of a six heat race, which he won without a break, beating among others Butterfly, Walnut and Bessie, all of whom have records better than 2:20. September 30, 1885, after a severe season in the stud, he won second money in the Champion Stallion Cup Race, at Mystic Park, being *close up in 2:19¾, 2:20½, 2:20,* although his preparation was very short, and he was reduced over 100 lbs. in flesh. In the few races he has trotted he has shown himself *game, resolute and fast,* and his gait, which he transmits to his get in a remarkable degree, is perfection. His colts are all young. But one of them, Oliver K., has been trained, and he has a four-year-old record of 2:24½, in a fourth heat against aged horses, and has shown a trial as a four-year-old, in 2:22, over a half-mile track. His get are all bay or brown, and all level headed.

King Wilkes himself has trotted a trial in 2:17, at the Gentlemen's Driving Park, New York City.

He is a vigorous and very sure foal getter. Previous to 1885, his first regular season in the stud, he covered but 26 mares, and got 20 foals. His services are offered to the breeding public, confident that they cannot go amiss in sending mares to him. Mares not parted with, and not proving in foal, may be returned free in 1887. Best care given to mares at reasonable terms. Address,

R. B. CONKLIN,

STARTLE AND NUTBOURNE.

Startle, *Sire of Majolica, record* **2:15.** **Nutbourne,** *out of dam of Maud S.,* **2:08 3-4.**

SEASON OF 1886.

The fashionably-bred stallions, STARTLE and NUTBOURNE, will make the season of 1886 at my farm, three miles east of Tarrytown, Westchester County, N. Y. Terms for each horse, $100 the season, which is due in advance of service. Mares not proving in foal can be returned the following season free of charge.

STARTLE is a bay horse, 15¼ hands high, by Hambletonian, dam Lizzie Walker, by Seeley's American Star; and although he has had but a very limited opportunity in the stud, is the sire of *Majolica*, record 2:15; *Portia*, record 2:29¼, and *Nero*, four-year-old record 2:31. Westchester, by Startle, trotted a mile in 2:29 over my track as a three-year-old. Loretta trotted a mile over the same track in 2:24, and Alley Bonner, also by Startle, trotted over Carll Burr's track a trial in 2:24¾. Many other instances could be given, such as a five-year-old and a four-year-old, owned by Mr. Ewart of Pittsburgh—the former having trotted in 2:23 and the latter in 2:38. Startle is not only a sire of trotters, but is a very fast horse himself, being the first horse to trot a mile in 2:19 over old Fleetwood Park, and on another occasion he trotted a half mile in 1:04½.

NUTBOURNE is a gray horse, 16 hands high, foaled 1877, by Belmont, dam Miss Russell, dam of *Maud S.*, record 2:08¾, by Pilot, Jr.; second dam Sallie Russell, by Boston (thoroughbred), etc. As will be seen, Nutbourne is not only out of the dam of Maud S., but he is a full brother to Nutwood, record 2:18¾, and Cora Belmont, record 2:24¼. As a five-year-old Nutbourne trotted, with very little handling, in 2:26¼, last quarter in 35 seconds; but since then he has not been trained, as he has been used exclusively for the stud. Nutbourne's full brother, Nutwood, is now *the* trotting sire in Kentucky, and is so popular that his services have been raised to $250. He had five of his get enter the 2:30 list during the season of 1885.

I have no room for mares on my place, but they can be kept on Mr. George W. Campbell's farm, and other farms in the neighborhood, on reasonable terms.

MARSHLAND STOCK FARM.

MAMBRINO DUDLEY, 2:20½, by Woodford Mambrino, dam Sue Dudley, by Edwin Forrest. See picture facing page 65.

KENTUCKY WILKES, 2:21¼, by George Wilkes, dam, Minna, by Red Jacket.

No other Breeding Farm in the world has Two Stallions, each having a Record better than 2:21½.

Woodford Mambrino, the best son of Mambrino Chief, and Mambrino Dudley, the best son of Woodford Mambrino.

George Wilkes, the best son of Hambletonian, and Kentucky Wilkes, the best son of George Wilkes.

The following appreciative remarks in regard to Mambrino Dudley are from the pen of a close and intelligent observer, and express an unbiased opinion:

"Without meaning to disparage any other of the celebrated sires of the mighty Mambrino tribe, I must confess that Mambrino Dudley pleases me better than any other member of that family that I ever saw. Docile, intelligent, kind, obedient, of fine size, good finish and imposing presence, speedy, game and pure gaited, elegantly coated and colored, fashionably bred, close up and remotely, his personal qualities seem near to perfection. His greatest claim to public confidence, however, is found in the remarkable quality of his offspring. I was recently at Marshland Farm, where I saw numerous foals by him, ranging from weanlings up to two-year-olds. With the single fault that there was an occasional chestnut, I never saw an equally good lot of Mambrinoes. They were strikingly uniform, enough to show their paternity, notwithstanding the wide difference among the dams in lines of blood and physical types, and the babies were nearly all little mature horses, so well formed and forward were they; and they were uniformly fine looking, too. Trot, and nothing but trot, was written over all alike. They were each and all a success, and proved their sire to be truly great. Superficially judged—that is to say, judged by the eye alone—they were simply above and beyond criticism, except, as before said, in regard to an occasional chestnut or sorrel. It is very hard for me to believe that a better Mambrino stock horse lives, and to all who like that strain, or want it (and it is undeniably great within certain limits), I can say that I cordially advise breeding to Mambrino Dudley, without hesitation or doubt. I am firmly convinced that history will write him down a phenomenal sire, regardless of the breeding of the mares mated to him. In this respect he stands absolutely independent and with few equals."

MAMBRINO DUDLEY has never had the benefit of an entire season upon the turf, all his campaigning having been done after a season in the stud. He made his present record after being for four years continuously in the stud, having heavy seasons every year. With but five weeks' training after the close season of 1885 he trotted the first heat of his race in 2:27, his second in 2:21, and his third in 2:20½, trotting the last quarter of the last mile in 34¼ seconds, or a 2:17 gait.

KENTUCKY WILKES has as much speed as any entire son of George Wilkes, having trotted repeatedly in his work in 2:18. He is larger than his sire and has more style and a higher finish than any other son of Wilkes, and the veterian observer Alden Goldsmith says he is the gamest Wilkes he ever saw. The oldest of his get are now only about six months of age, but all agree that they are a superb lot of youngsters. They are owned in the vicinity of Boston, and the *American Cultivator*, the leading agricultural paper of New England, says that $500 have been offered for his colts not three months old. Mr. J. R. Graham, of Boston, a most competent judge, writes that from what he had seen he is satisfied that Kentucky Wilkes will make a great sire and that he is worth $10,000.

Mambrino Dudley [with the usual privilege of return next year in case the mare does not prove in foal] - $100.00

Kentucky Wilkes (with like privilege) - - - - $75.00

Money to be due at time of service, and in all cases to be paid before the removal of the mare. Mares kept at risk of owner for $6 per month at pasture or $10 to hay and grain, or for $100 per annum. Season commences February 1st and ends August 1st. Address

THORNDALE STUD FARM

is situated on the Newburgh, Dutchess & Connecticut Railroad, three hours and a half distant from New York City. The 7:15 A. M. and the 8 P. M. trains on the Hudson River Railroad connect at Dutchess Junction with trains for Millbrook, which station adjoins Thorndale. The early morning and early afternoon trains from Albany also connect at Dutchess Junction with trains for Millbrook.

The stallions THORNDALE, 2:22¼ (see picture facing page 74), by Alexander's Abdallah out of Dolly, by Mambrino Chief, and NIL DESPERANDUM, 2:24 (see picture facing page 26), by Belmont, who was by Alexander's Abdallah out of Belle, by Mambrino Chief, stand at the head of the stud.

THORNDALE is the only living stallion with a record below 2:23 that has two representatives with records below 2:20. He is the only stallion standing east of the Alleghanics that has two representatives with records below 2:20.

NIL DESPERANDUM has but eight foals over two years old; one of those, DeBarry, obtained a record last season as a 5-year-old of 2:19½.

Both THORNDALE and NIL DESPERANDUM have, in their produce, given evidence of their ability to transmit their speed qualities to their produce; which all breeders know is one of the *most valuable qualities* in a stock horse.

THORNDALE will be allowed to serve forty (40) mares at $100 the season, with the privilege of returning should the mare not prove to get in foal. NIL DESPERANDUM will be allowed to serve fifty (50) mares at fifty dollars ($50) the season, with the same privilege of returning mares as THORNDALE. I am always pleased to show the stock at Thorndale, on any day except Sunday, to all parties who take sufficient interest in breeding to favor me with a call.

TROTTING AND PACING INFORMATION.

In connection with the compilation of his statistical works, the undersigned has a very large correspondence, and is kept well posted—perhaps better than any other man in the country—in regard to the pedigrees and performances of the trotting and pacing stock of the country. Any facts not known to him are yet accessible, because of the reliable correspondents he has in all parts of the United States and Canada. People are frequently at a loss to obtain information that the undersigned can readily supply, and letters to the sporting papers involve a delay before the answer is received, and the replies are frequently unsatisfactory. The ready way to obtain speedy and correct information is to write to the compiler of this work, inclosing a fee of $1, and the answer will be sent by return mail, if possible, and if not, as soon as the facts can be ascertained.

Pedigrees of trotters or pacers will be traced and tabulated at reasonable charges, the amount depending upon the difficulties involved and the style in which the pedigree is to be prepared.

Breeders desiring to issue catalogues, either for stock or sale purposes, can make arrangements with me for the entire work, printing, press-work and binding included, and satisfaction guaranteed.

Cases conducted before the Board of Review, horses bought or sold upon commission, etc. All dealings in strict confidence.

ANNOUNCEMENT.

NEW YORK, March 15, 1886.

THIS volume is the second annual supplement to "Chester's Complete Trotting and Pacing Record," and it is placed before the public with feelings of considerable satisfaction, as it comes very near realizing the ideas of the compiler. If there is in its pages a single erroneous record or pedigree, or a solitary case in which horses that should be separated are placed together, or *vice versa*, or if there is a wrong reference in the Index of Beaten Horses, it is something that has escaped the utmost vigilance, and will be a surprise to me. The intention is to have these works letter-perfect, books that horsemen can repose entire confidence in, in every respect. In compiling the present volume, as has been the case with all my works, the records have been most carefully compared with the returns on file in the office of the National Trotting Association at Hartford, Conn., and will be found to agree with those in most instances. When they differ, it is because this Supplement contains summaries of a number of races that have never been sent to the office of the National Association, in which faster heats were made than in any reported there for the same horses. Over 3,500 letters have been received by the compiler from owners, drivers and others in regard to horses whose performances are chronicled in this book, and the vast amount of information contained therein, when available and authentic, has been emptied into it. The good effect of the system of correspondence that has been prosecuted in its behalf is shown in the unexampled number of pedigrees that the work contains.

The compiler feels indebted to the thousands of people throughout the country who have assisted him with information, and discharges the indebtedness by embodying all the valuable facts contributed in a convenient form. It will be his aim to make each succeeding Supplement more comprehensive than its predecessor, and to this end he asks not only a continuance but an increase of the co-operation of those interested in such matters.

Those who may purchase the Supplement for 1885 alone, are advised that the price of the entire work, including, also, the parent volume and the Supplement for 1884, making the record complete from the earliest dates until the close of last season, is $10, and that for $8 they will be supplied with the two preceding volumes. The price of the Supplement for 1884 remains as before fixed, $1.00 in paper, and $1.50 in cloth binding; but hereafter the annual books will be bound only in cloth, and sold at $2.

CHESTER'S COMPLETE TROTTING AND PACING RECORD.

SUPPLEMENT FOR 1885.

EXPLANATION.

The names of horses in black type, arranged in alphabetical order, are those of the winners of the races, and under each horse's name the races won by him appear in chronological order. All races are trotting, mile heats, best three in five, in harness, unless the contrary is shown by the time, stated at the conclusion of the summary, or a different way of going indicated by proper signs. After the name of the winner appears his description, as "b s," for bay stallion, "br g," for brown gelding, "gr m," for gray mare, etc. The following figures, in heavy type and in parentheses, show the best record of the horse to the close of the year 1885. Then follow the pedigree of the winner, when known ; the name of the nominator, place and date of race, amount of money trotted for, and the names of the horses beaten, in the order of their standing at the close of the race, and last comes the time of the heats. The ordinary signs are used to denote the incidents and casualties of the race. Thus the character "0" in connection with a number in a bracket indicates that the horse, whose name that sign follows, made a dead heat in accordance with the number, viz.: (3 0), signifies third heat dead. The abbreviation "dr" signifies drawn ; "dis" distanced ; "r o," ruled out ; "w o," walk over, etc. Figures following the name of a beaten horse shows that he won the heat or heats corresponding with the number. When the letter "w" follows the name of a horse, it signifies that he went to wagon, and the letter "s" that he went under saddle. In cases where a horse has a record to harness, or wagon, and a faster one under saddle, both are given. When an asterisk (*) is attached to the figures usually denoting a record, it signifies that the time, being over a short track, is a bar and not a record. The summaries preceded by dashes (———) are subsequent victories of the horse whose description and record have been given, and in these, if the name of nominator, or of place of trotting, or of both of these, are not given, it signifies that they are identical with those of the race immediately preceding. It sometimes happens that a horse winning as a stallion wins later as a gelding, in which cases the castration is shown by the change in the description, but there being no renewal of the name, it will be understood that it is the same horse under changed conditions. In order to keep them of record, losing performances against time are given under the name of the losing horse, as a part of his history, and the fact that he lost is mentioned in the summary. The numerals at the right of the printed pages divide them into blocks of ten lines each, for convenience of reference in the Index of Beaten Horses, and the reader is referred to the explanation preceding that Index.

INDEX TO BEATEN HORSES.

In the following Index the names of horses who trotted or paced during the year 1885, and were beaten in any of their races, appear in alphabetical order. The figures in parentheses following the descriptions of the horses denote their best records to the close of 1885. Pedigrees are given when known, and not to be found in the body of the book in connection with the name of the horse as a winner. The ensuing figures denote the pages of the book in which the trotter or pacer performs as a beaten horse, and the smaller "superior" figures indicate the particular section of a page in which to look for the name, these corresponding to the side notes on the pages containing summaries. When a page reference is enclosed in parentheses, the best record of the horse will be found in the page and section to which reference is thus made. In the frequent cases where a faster record is ascribed to a horse than appears in this volume, the information as to when, where and under what circumstances it was made, can be found in earlier volumes of Chester's Complete Trotting and Pacing Record.
